HAEMO

HAEMO Inc.,

COMPANY INTRODUCTION

"Healthy Kitchenware Makes a Healthy World"

HAEMO is trying to realize its corporate philosophy of "healthy tableware makes a healthy world."

It is Korea's leading kitchenware manufacturer that has a material purchasing department,

its own production plant, and R&D department and produces only verified materials in Korea.

Research & Development

We've done market research, target research, Identify the needs.

And constantly researching and developing.

Raw Materials

Purchase raw materials directly.

International standard validated materials only Use it. (Company P, Company H)
